

VENTILATOR DUCTING KITS

**Remove hot & stale air
from bathrooms, toilets
laundries, kitchens, etc.**

FEATURES & BENEFITS

- **Improved indoor air quality** – proper ventilation provides an environmentally friendly indoor space which lessens the chance of family health problems and provides a fresher smelling bathroom.
- **Reduce future maintenance expenses** – ignoring the harmful effects of too much humidity in a bathroom can cause mold, mildew and deterioration of ceilings, walls, doors, fixtures and cabinetry.
- **Helps stop mirrors from fogging up** – it's a nuisance having to wipe your mirror after taking a shower – proper ventilation will lessen this problem.
- **Easy to Clean** - the ceiling grill fixes magnetically, so it's easy to remove for cleaning.
- **Save money** - No running costs.
- **Easily installation** - No structural alterations needed.
